

COMPANY OVERVIEW

Every business is different. So should its website.

We design and build distinctive websites and digital experiences tailored to your business, your audience, and your ambitions.

WHO WE ARE

A small studio. A considered approach.

Vendor is an independent digital studio based in France, designing and building websites for ambitious U.S. businesses in every industry.

You work directly with the person designing your website. Calls are scheduled in your time zone; every project starts with a written proposal.

Seven ways we help your business stand out.

Website Design

A visual direction built around your business, not a template. We shape the look, the page structure and the details so your website feels unmistakably yours.

Website Development

Fast, secure websites that feel effortless on every screen. We turn the approved design into a polished, reliable site with clean navigation and solid SEO foundations.

Website Redesign

Outgrown your current site? We rethink the structure, sharpen the message and rebuild your presence so it reflects where your business is today.

Website Maintenance

Updates, monitoring, backups and small content changes, so your site stays secure and current while you focus on your business.

Interactive Web Experiences

Motion, scroll storytelling and interactive moments that make visitors remember you, used where they serve the message, never just for show.

Custom Web Features

Tools built for how your business actually works: calculators, configurators, galleries or booking flows, each scoped and quoted case by case.

Digital Business Solutions

The pieces around your website: digital business cards, downloadable brochures and connections to the tools you already use.

OUR EXPERTISE

Design that looks exceptional. Features that work.

Tailored, never templated

Every direction is built from your business, audience and goals.

Interactive experiences

Motion and storytelling used where they serve the message.

Custom features

Calculators, galleries, booking and request flows, scoped case by case.

Performance and SEO

Fast, mobile-first pages search engines can read.

SELECTED WORK

Different industries. Different directions.

Self-initiated visual concepts, not client commissions or live websites.

Maison Estates — Luxury Real Estate

OSSA — Fashion Label

Kiln & Co — E-commerce

Forma Dental — Dental Practice

Table & Tide — Restaurant

Pulse Studio — Fitness Studio

North Advisory — Business Consulting

Fieldwork — Landscape Design

Still / Studio — Photography Studio

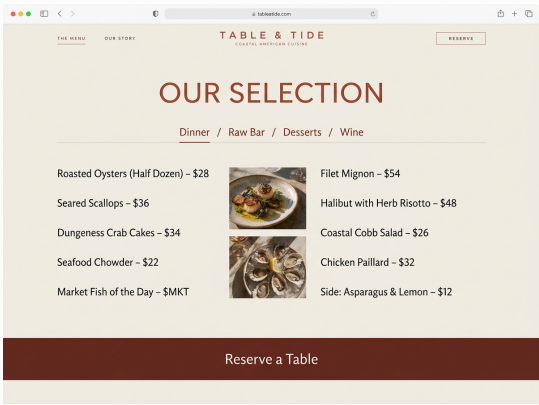

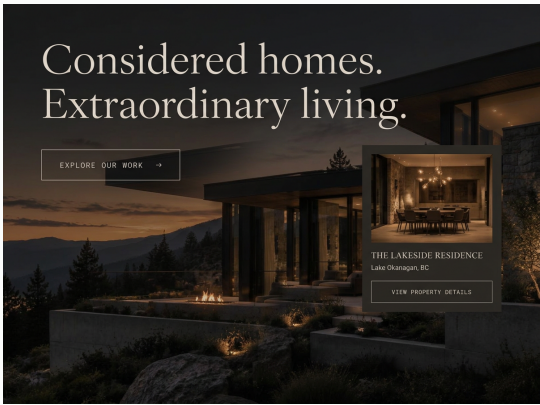

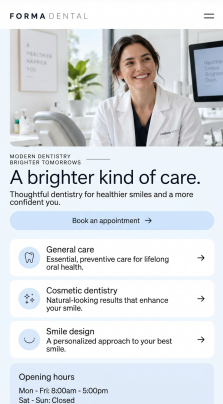

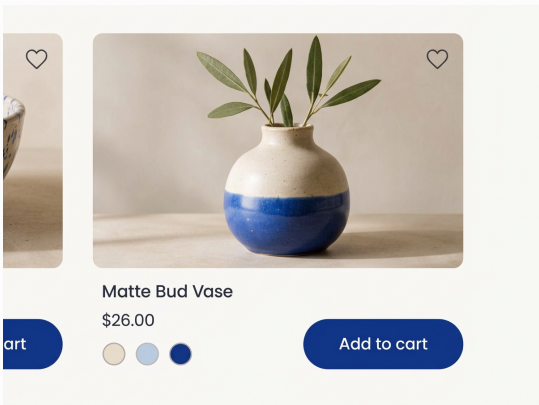

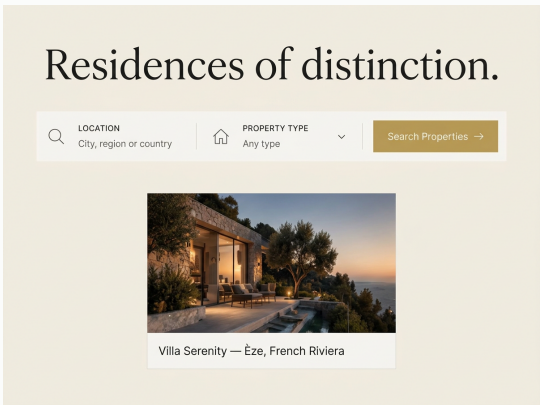

Ridgeline Custom Homes — Luxury Home Builder

Summit Roofing Co. — Roofing Contractor

INSIDE THE CONCEPTS

Every view, designed.

Each concept includes desktop, mobile, a secondary page and close-up details.

OUR PROCESS

Great work. Without the guesswork.

01 / Discovery

A short call to understand your business, services, service area and goals.

02 / Strategy & Structure

We shape the message, map the pages and create a clear path from first impression to first inquiry.

03 / Design

A distinctive visual direction built around your business, your brand and the people you want to reach.

04 / Development

A fast, responsive build with forms, SEO foundations and analytics configured.

05 / Review & Launch

You review, we refine, then we launch and verify everything works.

06 / Ongoing Care

Optional maintenance keeps your site secure, updated and performing.

Clear starting points.

Final pricing depends on project scope. Monthly care is optional.

Essential — from \$999

Designed for small local service businesses. Optional care: \$79/month.

Business — from \$1,999 (Recommended)

For established service businesses ready to grow their online presence. Optional care: \$149/month.

Premium — from \$3,499

For ambitious companies requiring advanced design and functionality. Optional care: \$249/month.
